

## A Total Breakthrough in the Fight Against Visible Effects of Aging

*RevitaCel Products Featuring Human Fibroblast Conditioned Media*

*Launched via Infomercial Starring Lindsay Wagner*

In 2001 the world learned of a total breakthrough in advanced anti-aging skin care when RevitaCel was introduced in a hit infomercial with actress Lindsay Wagner. The products feature a breakthrough anti-aging ingredient that contains all of the key elements found in human skin.

### Replenishing Complex with Human Fibroblast Conditioned Media™

Replenishing Complex is a true breakthrough in anti-aging skin care technology. This formulation takes a completely new approach to skin rejuvenation by replenishing topically the natural compounds produced by healthy new skin. These naturally-produced nutrients replenish aging skin with soluble collagen, matrix proteins, natural human growth factors, and antioxidants. The result is softer, smoother, younger-looking skin.

- ✓ Proven to improve elasticity, smooth wrinkles
- ✓ Replaces natural skin proteins
- ✓ Increases hydration
- ✓ Repairs damage done by sun and time
- ✓ Mild enough for all skin types

#### Instructions for Use:

1. Cleanse skin thoroughly with RevitaCel Foaming Cleanser (or Skin Basics Step 1).
2. Rinse thoroughly. Apply Berridroxies Activating Serum while it is still slightly damp on the face,
3. Apply Replenishing Complex and allow your skin to absorb all of the nutrients in the formulation.

#### Ingredients:

Human Fibroblast Conditioned Media, Coco-Caprylate/Caprata, Ethyl Macadamiate, Water (Aqua), Hexyl Laurate, Polyglyceryl-4 Isostearate, Butylene Glycol, Cetyl PEG/PPG-10/1 Dimethicone, Sodium Chloride, Cyclopentasiloxane, Polyglyceryl-3 Diisostearate, Dimethicone/Vinyl Dimethicone Crosspolymer, Carbomer, Polysorbate 20, Isononyl Isononanoate, Beeswax, Titanium Dioxide, Fragrance (Parfum), Silica Silylate, Palmitoyl Pentapeptide-3, Lactic Acid, Alumina, Polyglyceryl-6 Ricinoleate, Tocopherol (Vitamin E), Simethicone, Xanthan Gum, Sorbic Acid, Methylparaben.

### Replenishing Complex for Eyes

Contains Human Fibroblast Conditioned Media™, with the same cocktail of compounds found in Replenishing Complex for the face, but with subtle differences. Especially formulated for the delicate eye area, the rich creamy formulation contains an extra "boost" of moisturizers with the key ingredients that help decrease the appearance of those fine lines and wrinkles that are often the earliest signs of aging.

- ✓ Decreases fine lines and wrinkles
- ✓ Increases hydration
- ✓ Topically replaces natural compounds that are found in younger skin
- ✓ Mild enough for all skin types

#### Instructions for Use:

Use twice a day at the same time as Revitacel Replenishing Complex to get maximum results. This product should be used after the skin has been cleansed with Revitacel Foaming Cleanser (or another cleanser) and exfoliated with Revitacel Activating Serum.

#### Ingredients:

Human Fibroblast Conditioned Media, Coco-Caprylate/Caprata Butrospermum Parkii (Shea Butter), Ethyl Macadamiate, Polyglyceryl-4 Isostearate, Water (Aqua), Cetyl PEG/PPG 10/1 Diamethicone, Glycerin, Cyclopentasiloxane, Butylene Glycol, Sodium Chloride, Polyglycerl-3 Diisostearate, Hexyl Laurate, Tocopherol, Sila Silylalte, Fragrance, Isononyl Isononanoate, Titanuim Dioxide, Propylene Glycol, Diazolidinyl Urea, Xanthan Gum, Methylparaben, Carbomer, Polysorbate 20, Dimethicone/Vinyl Dimethicone Crosspolymer, Propylparben, Palmitoyl, Pentapeptide-3, Simethicone, Polyglyceryl-6, Ricinoleate, Lactic Acid, Sorbic Acid, Alumina.

### Rejuvenating Moisturizing Crème

Dermatologist-developed, this exclusive, highly-effective formula contains Human Fibroblast Conditioned Media™, to deliver advanced hydration to all skin types, helping to rejuvenate and revitalize the skin to restore a more youthful and healthy appearance.

- ✓ New, highly effective formula
- ✓ Replaces natural skin proteins
- ✓ Increases hydration
- ✓ Makes skin feel smooth and soft
